ESTONIAN WEATHER BULLETIN
19 - 31 AUGUST 1949

Sovetskaya Estoniya, No 195, 19 Aug 49

The weather throughout the republic for the past few days has been cool and partly cloudy during the day, with complete clearing during the night. During the day there were local showers, and at night there was fog in some places.

A continuation of this weather may be expected during the next few days, with a rise in temperature anticipated not earlier than 21 August.

Sovetskaya Estoniya, No 196, 20 Aug 49

On 19 August, the weather in the Estonian SSR continued to be cool with variable cloudiness and local showers. The heaviest rainfall and thunderstorm occurred in the region of Tallin, where 15 millimeters of rain fell during the night of 18 - 19 August. The night temperature was 5-10 degrees; the day temperature 15-18 degrees.

In the next 3 days, a gradual improvement in the weather is expected. There will be some local showers on 20 August, but dry and clear weather is expected to begin on 21 August. The day temperature will be 15-20 degrees, night temperature 5-9 degrees.

Sovetskaya Estoniya, No 197, 21 Aug 49

Cool weather with variable cloudiness has continued for the past few days throughout the republic. There were small local showers in the western regions.

It is expected to be slightly cloudy, dry, with moderate to light northwest and 1st winds during 21 - 23 August. Day temperature will be 15-20 degrees; night temperature, 5-9 degrees.

Sovetskaya Estoniya, No 198, 23 Aug 49

Continuous rains beginning on the night of 22 August in the eastern and south-eastern regions spread over most of the uyezds of the republic during the day. During the night 9-10 millimeters of precipitation fell on Mustvee and Valga; precipitation at Vyru and Narva was 14-16 millimeters. Night temperature throughout the republic was 8-12 degrees, and daytime temperature was 14-18 degrees.

In the next 3 days a continuation of cool weather with full and partial cloudiness may be expected. There will be showers everywhere, with light to moderate winds. Daytime temperature will be 15-19 degrees, with nighttime temperature 8-12 degrees.

Sovetskaya Estoniya, No 199, 24 Aug 49

During the past 24 hours, weather in the Estonian SSR was observed to be improving. In the next 3 days, further improvement is to be expected with a gradual rise in temperature. On 24 August, there will be showers in places with daytime temperature from 15 to 20 degrees.

Sovetskaya Estoniya, No 200, 25 Aug 49

On 24 August, dry weather prevailed in the Estonian SSR with varying cloudiness during the day and complete clearing at night. Daytime temperature ranged from 17 to 20 degrees.

On 25-27 August, all districts may expect continued dry weather with varying and slight cloudiness, and light to moderate winds. Daytime temperature may range from 16 to 22 degrees, and at night from 7 to 12 degrees.

Sovetskaya Estoniya, No 201, 26 Aug 49

During the past 24 hours, the weather in the republic has remained slightly cloudy, calm, and dry. At night and in the morning, fog was observed in the Vil'yandi and Narva areas. Daytime temperature ranged from 18 to 22 degrees, and night from 8 to 12 degrees.

During the next 3 days, continued calm, dry weather with prolonged clearing is expected in all districts. Some localities may have fog at night and in the morning. Daytime temperature will range from 19 to 23 degrees, and night, from 8 to 12 degrees.

Sovetskaya Estoniya, No 202, 27 Aug 49

On 26 August, weather in the republic continued to be slightly cloudy, calm, and dry. In the morning, fog was recorded in the Tallin and Kuusik areas. The minimum temperature at night was 2-4 degrees, and the daytime, 18-22 degrees everywhere.

On 27 - 29 August, no change in weather is expected. Calm, dry weather is to continue in all districts. Daytime temperature should range from 19 to 22 degrees.

Sovetskaya Estoniya, No 203, 28 Aug 49

The weather in the republic during the past few days has remained calm and dry with slight cloudiness and complete clearing. A noticeable increase in temperature has begun in the whole general area. The temperature during the night ranged from 6 to 11 degrees, and from 20 to 23 degrees during the day.

Calm, sunny, dry weather will continue in the republic for no less than 2-3 days. A further rise in temperature is to be expected.

Sovetskaya Estoniya, No 204, 30 Aug 49

On 29 August, weather throughout the republic continued to be calm, warm, and dry, with cloudiness. Night temperature was 10-15 degrees, and daytime temperature, 20-25 degrees.

In the next 3 days, continued warm weather with variable cloudiness is expected. During the daytime, there may be small local thunder showers. The wind is to be light and of variable direction. Daytime temperature will be 20-24 degrees, and night temperature, 10-15 degrees.

Sovetskaya Estoniya, No 205, 31 Aug 49

During the past 24 hours, weather in the republic has continued to be warm with variable cloudiness and local thunder showers. Night temperature was 13-16 degrees, daytime temperature 20-23 degrees.

In the next 3 days, continued warm weather with variable cloudiness, local thunder showers, and fog at night and in the morning is expected. Winds of variable directions will range from light to moderate. Daytime temperature will be 20-24 degrees, night temperature, 12-16 degrees.
